Subject: Application for [Job Title] Position

Dear [Hiring Manager's Name],

I am excited to apply for the [Job Title] position at [Company Name]. With a strong background in software development, cybersecurity, and IT infrastructure, I am eager to bring my expertise in backend development, cloud security, and full-stack programming to your dynamic team.

Throughout my career, I have honed my skills in Java, C#, Python, JavaScript (Node.js, React, Express), and SQL. My experience at AP (Thailand) Public Company allowed me to develop and optimize web applications, conduct software testing, and collaborate with product developers to enhance system functionality. Additionally, my tenure at Thai Airways International provided me with valuable experience in embedded systems, automation, and system monitoring using Python and MATLAB.

I am particularly passionate about designing scalable applications and ensuring system security. My proficiency in cloud platforms (AWS, Azure, Firebase), DevOps practices (CI/CD pipelines, Docker, Kubernetes), and cybersecurity tools (Wireshark, Metasploit, Nmap) equips me to contribute effectively to [Company Name].

What excites me about [Company Name] is [mention something specific about the company, such as its mission, projects, or culture]. I am confident that my problem-solving skills, adaptability, and technical expertise would make me a valuable addition to your team.

I welcome the opportunity to discuss how my skills and experiences align with the needs of your team. Please feel free to contact me at 647-425-8340 or ppj.pang2607@gmail.com to schedule a conversation at your convenience.

Thank you for your time and consideration. I look forward to hearing from you.

Best regards,

Pornpajee Sunkkadithee
